

# Yoga for ADHD, Autism & Differently-abled Children

*Taught by Shakta Khalsa, ERYT-500, Founder of Radiant Child Yoga and Allison Morgan, MA, OTR RYT-200.*

**Special needs? Perhaps, but we prefer to call them children with special intentions!**

Learn how to reach the hearts and minds of these amazing children using your creativity, intuition, and excellent therapeutic tools. In the process, you'll learn what these very special children have to teach us.

As a parent, teacher, or therapist, you will learn to integrate yoga into the everyday lives of children through:

- **Breath:** to enhance self-regulation, modulation and emotional balance.
- **Movement:** to improve motor planning, balance, coordination, strength and flexibility.
- **Meditation/Relaxation:** to decrease stress and promote a calm, relaxed body and centered mind.

Course includes a comprehensive training manual. Fly like a butterfly: Yoga for Children and Yoga in Motion DVD are highly recommended and will be available for sale at the course.

**March 31-April 2, 2017**

Friday 6:00-9:00pm, Saturday 8:00am-5:00pm, and Sunday 8:00am-4:00pm

**At: Reflections Center for Conscious Living & Yoga, New York City  
227 East 24th Street, New York, NY; [www.reflectionsyoga.com](http://www.reflectionsyoga.com)**
